## CORPORATE OVERVIEW

Luvo is a forward-thinking food company creating the next generation of frozen food, with a focus on great taste, convenience and most importantly, nutrition.

- > We offer consumers chef-created, nutritionist-approved meals made from high quality ingredients that are affordable and convenient.
- > We are all about nutrition. From full servings of fruits and vegetables to nourishing whole grains and lean proteins, we put the best real ingredients into everything we make – so you can feel and perform better in every aspect of life.
- > We are disrupting the frozen food and CPG industry by introducing Frozen Food 3.0 – great tasting, nutritious frozen meals with full servings of fruits and vegetables. Frozen Food 3.0 is the next generation in the evolution of the frozen food industry, going beyond the convenient and processed products that first defined the earliest generations (Frozen 1.0) and the niche, diet focused frozen meals made with unnatural ingredients that have more recently dominated the freezer aisle (Frozen 2.0). We're providing simple solutions that meet people's lifestyle needs, so they never have to sacrifice convenience for health or taste. We call it, food for the greater good.
- > We are sparking a change in the way consumers eat and think about frozen food, with nutrition standards that set us apart and drive new shoppers into the category; and a unique commitment to nutrition education, with ambassadors and community partnerships that help spread awareness and promote a nutrition-fueled lifestyle.

## LUVVO'S FOCUS ON NUTRITION

- > Every one of Luvo's chef created, nutritionist-approved meals promises one (or more) servings of fruits and vegetables, with an emphasis on whole grains and portioned amounts of lean proteins.
- > Our delicious, globally inspired menu uses herbs and spices instead of extra sodium, sugar, artificial colors, flavors and sweeteners.
- > Luvo meals have less than 500 calories and 500 mg of sodium, and are responsible with added sugars.
- > We use the freshest ingredients to create a variety of meals that are cooked in small batches, flash frozen, and heated in our paper pouch or convenient paperboard bowls.
- > We offer a full range of 20+ entrees in global flavors, including gluten-free, vegan and vegetarian options, with an average price point of \$6.00 USD.
